## React.js Frontend Developer

Bangalore | +91-8870384006 | [mageshb4006@gmail.com](mailto:mageshb4006@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### SUMMARY

React.js Frontend Developer with hands-on experience building 4+ scalable applications using React.js, JavaScript (ES6+), Redux Toolkit, React Query, and REST APIs. Skilled in creating responsive and high-performance user interfaces. Seeking **Frontend Developer Internship, React.js Developer Internship, or Entry-Level Software Developer opportunities.**

### SKILLS

**Languages & Frameworks:** React.js, JavaScript (ES6+), HTML5, CSS3

**Styling:** Tailwind CSS, Bootstrap 5

**State Management:** Redux Toolkit, React Query

**Tools:** Git, GitHub, Vite, Figma, Vercel, Netlify, Postman, Chrome DevTools, VS Code

**Concepts:** REST APIs, JWT Authentication, Lazy Loading, Code Splitting, WCAG, Agile/Scrum, Single Page Applications (SPA), Cross-Browser Compatibility

**Programming Concepts:** DOM Manipulation, Responsive Design, Component-Based Architecture, API Integration, Debugging

### PROJECT EXPERIENCE

#### SpendLens — Expense Tracker Web App

[GitHub](#) | [Live Demo](#)

**Tech:** React.js, Tailwind CSS, Redux Toolkit, React Query, REST API, JavaScript ES6+

- Engineered a responsive expense tracker supporting secure JWT authentication and management of 5+ expense categories.
- Implemented lazy loading, code splitting, and memoization techniques to optimize application performance and reduce unnecessary rendering.
- Managed global state using Redux Toolkit across 3 key modules: authentication, expenses, and UI state.
- Integrated React Query for API data fetching, caching, and background synchronization to improve data handling efficiency.

#### SuperCart — E-Commerce Platform

[GitHub](#) | [Live Demo](#)

**Tech:** React.js, Tailwind CSS, JavaScript ES6+, REST API

- Created a responsive e-commerce application with product filtering across 6+ categories, keyword search, and multi-item cart management.
- Designed 15+ reusable React components to improve code maintainability and component reusability.
- Integrated REST APIs to fetch and display 50+ product records dynamically with responsive UI updates.

#### Advanced Task Manager

[GitHub](#) | [Live Demo](#)

**Tech:** React.js, Tailwind CSS, JavaScript ES6+

- Implemented a drag-and-drop task management application with 3 task filters, priority-based organization, and localStorage data persistence.
- Created 8+ reusable UI components across multiple application modules with responsive layouts.
- Optimized React rendering using custom Hooks, component memoization, and efficient state management techniques.

#### Personal Portfolio Website

[GitHub](#) | [Live Demo](#)

**Tech:** React.js, CSS3, JavaScript

- Designed and deployed a responsive portfolio website featuring 5+ sections, interactive animations, and accessible UI components.
- Optimized assets and responsive layouts for consistent user experience across desktop, tablet, and mobile devices.

### EXPERIENCE

#### React.js Frontend Developer | Self-Driven Projects (Remote)

2025 – Present

- Delivered 4 React.js applications utilizing REST APIs, JWT authentication, and modern frontend development practices.
- Applied React performance optimization techniques including lazy loading, custom Hooks, and component-based architecture.

#### TOM Operator (Non-IT) — Metro Train Operations | Bangalore

2023 – 2024

- Monitored daily metro train operations and maintained accurate operational records while adhering to strict safety procedures.
- Coordinated with operational teams to support smooth train movement and passenger safety.

### EDUCATION

Bachelor of Science in Computer Science (B.Sc CS)

2016 – 2019

Dr. R.K. Shanmugam College of Arts and Science, Kallakurichi (Affiliated to Thiruvalluvar University)

### CERTIFICATIONS

Java Full Stack Development — Besant Technologies (2025 – 2026)
