

MAGESH B

React.js Frontend Developer

mageshb4006@gmail.com • +91 8870384006 • Bangalore, India • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

React.js Frontend Developer with hands-on experience building and deploying 4 responsive web applications using React.js, Redux Toolkit, REST APIs, and modern frontend tools. Skilled in creating scalable component-based architectures, optimizing frontend performance, and developing user-friendly interfaces. Dedicated to engineering clean, accessible, and high-performance web applications.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap 5

State Management: Redux Toolkit, React Query

Tools & Deployment: Git, GitHub, VS Code, Vite, Webpack, Chrome DevTools, Figma, Vercel, Netlify

Testing: Jest, React Testing Library

Concepts: REST APIs, JWT Authentication, Responsive Design, Lazy Loading, Code Splitting, Web Accessibility (WCAG), Agile/Scrum

PROJECT EXPERIENCE

SpendLens — Expense Tracker Web App [GitHub](#) | [Live Demo](#)

Tech: React.js, Tailwind CSS, REST API, React Query, JavaScript ES6+

- Built a responsive expense tracker integrating 10+ secure API endpoints for seamless JWT authentication and real-time transaction management dashboard.
- Improved page load performance by ~30% utilizing lazy loading, code-splitting, and memoization techniques.
- Implemented centralized global state management using Redux Toolkit to manage 3+ interconnected data streams and active user sessions.

SuperCart — E-Commerce Platform [GitHub](#) | [Live Demo](#)

Tech: React.js, Tailwind CSS, JavaScript ES6+, REST API

- Engineered a responsive e-commerce application successfully handling product filtering, keyword search, and multi-item cart management across 4+ operational product modules.
- Authored 15+ modular React components to maximize code reusability, resulting in a 25% reduction in overall code complexity and maintenance time.
- Architected a multi-tier state system to deliver fluid UI interactions with zero layout shifts.
- Connected complex REST APIs for dynamic product cataloging and real-time synchronization of inventory data.

Advanced Task Manager [GitHub](#) | [Live Demo](#)

Tech: React.js, Tailwind CSS, JavaScript ES6+

- Created a drag-and-drop task management system featuring 3 distinct task filters, strict priority queues, and 100% data persistence via localStorage.
- Constructed 8+ scalable UI blocks and adaptive fluid layouts tailored for flawless cross-device usability spanning mobile to ultra-wide displays.
- Fine-tuned component rendering cycles to boost interaction speeds by 40% utilizing advanced custom React Hooks and optimization workflows.

Personal Portfolio Website [GitHub](#) | [Live Demo](#)

Tech: React.js, CSS3, JavaScript

- Designed and launched a high-performance personal portfolio featuring 5+ dynamic views, fluid micro-animations, and accessible UI controls.
- Applied industry-standard web optimization audits to achieve top performance marks, ensuring faster asset loading and consistent rendering across 4 major browsers.

EXPERIENCE

Frontend Developer — Independent Projects | Bangalore | 2025 – Present

- Spearheaded the end-to-end deployment of 4 production-ready React.js web applications featuring robust REST API integrations and JWT session handling.
- Executed strategic front-end performance tuning (lazy loading, hooks) and modern state workflows, accelerating page interactions by 40% and cutting re-renders.

TOM Operator (Non-IT) — Metro Train Operations | Bangalore | 2023 – 2024

- Monitored high-volume metro train operations and maintained accurate operational logs while following strict zero-incident safety standards.

EDUCATION

DR.R.K.Shanmugam College of Arts and Science, Kallakurichi | 2018 – 2021

B.Sc Computer Science — Thiruvalluvar University, Tamil Nadu

CERTIFICATIONS

- Java FullStack Certification — Besant Technologies, Bangalore (2025)
