

MAGESH B

React.js Frontend Developer

mageshb4006@gmail.com • +91 8870384006 • Bangalore, India • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

React.js Frontend Developer with hands-on experience building and deploying 4 web applications using React.js, Redux Toolkit, React Query, and REST APIs. Skilled in developing responsive user interfaces, implementing JWT authentication, optimizing application performance, and creating reusable component architectures. Seeking a Frontend Developer or Internship role to contribute to modern web applications.

TECHNICAL SKILLS

Languages & Frameworks: React.js, JavaScript (ES6+), HTML5, CSS3

Styling: Tailwind CSS, Bootstrap 5

State Management: Redux Toolkit, React Query

Tools: Git, GitHub, Vite, Figma, Vercel, Netlify

Concepts: REST APIs, JWT Authentication, Lazy Loading, Code Splitting, WCAG, Agile/Scrum

PROJECT EXPERIENCE

SpendLens — Expense Tracker Web App [GitHub](#) | [Live Demo](#)

Tech: React.js, Tailwind CSS, REST API, React Query, JavaScript ES6+

- Developed a responsive expense tracker with JWT authentication and transaction dashboard using React.js and REST APIs.
- Optimized performance using lazy loading, code splitting, and memoization techniques.
- Managed global state using Redux Toolkit across multiple interconnected data streams and user sessions.
- Implemented React Query for API data fetching, caching, and background synchronization to improve application responsiveness.

SuperCart — E-Commerce Platform [GitHub](#) | [Live Demo](#)

Tech: React.js, Tailwind CSS, JavaScript ES6+, REST API

- Built a responsive e-commerce app with product filtering, keyword search, and multi-item cart management using React.js.
- Developed 15+ reusable React components, reducing code duplication and improving maintainability.
- Integrated REST APIs for dynamic product catalog and real-time inventory synchronization.

Advanced Task Manager [GitHub](#) | [Live Demo](#)

Tech: React.js, Tailwind CSS, JavaScript ES6+

- Built a drag-and-drop task manager with priority queues, 3 task filters, and localStorage data persistence.
- Developed 8+ reusable UI components used across multiple application modules with responsive layouts.
- Reduced unnecessary re-renders using custom React Hooks and component optimization techniques.

Personal Portfolio Website [GitHub](#) | [Live Demo](#)

Tech: React.js, CSS3, JavaScript

- Designed and deployed a responsive portfolio with dynamic views, micro-animations, and accessible UI controls.
- Optimized asset loading and responsive rendering to improve user experience across modern browsers.

EXPERIENCE

Frontend Developer (Personal Projects) | Bangalore | 2025 – Present

- Built and deployed 4 production-ready React.js applications with REST API integrations and JWT session handling.
- Improved frontend performance through lazy loading, custom hooks, and state optimization techniques.

TOM Operator (Non-IT) — Metro Train Operations | Bangalore | 2023 – 2024

- Monitored high-volume metro train operations and maintained accurate operational logs while following strict zeroincident safety standards.

EDUCATION

B.Sc Computer Science

DR.R.K. Shanmugam College of Arts and Science, Kallakurichi Affiliated to Thiruvalluvar University | 2021

CERTIFICATIONS

- Java FullStack Certification — Besant Technologies, Bangalore (2025)
